Mollenhauer Dream Recorders

Made from natural pearwood with dark stained rings, this is an ideal first recorder for teaching in groups or classes, the large finger holes making it ideal for children. Produced in collaboration with reputable Dutch recorder maker Adriana Breukink, the Dream range is a popular choice of instrument with all levels of player. Based on the renaissance style after van Eyck it has a wide bore giving it a broad, full sound, but has conventional baroque fingering. This results in a sound that is full and powerful like the renaissance originals but with an easy response over two octaves.

Marsyas Recorders

MARSYAS recorders are the result of years of research by Heinz Ammann. They are professional instruments which are manufactured partly industrially and partly by hand. The recorders are produced by Kung recorders of Schaffhausen, Switzerland and are then tuned and voiced by hand. Profound knowledge and versatile technical possibilities are thus brought together to make the instruments.

Effortless response in all registers, colourful, clear sound and a balanced pitch, attractive, light and elegant shape.

Supplied in canvas case, with cleaning rod, grease and fingering chart.

recorder accessories

Recorder carrying bags

- EMS - UR10 'un-roll' 10 slot bag£ 52.50

EMS Unroll bag

The UR10 is very popular bag which combines the lightness of roll bags with the capacity of some of the hard cases. With ten slots, it provides scope to carry a combination of recorders from soprano to tenor. It has a fleecy lining to help guard against condensation and protect the instruments. There are three good sized sheet music pockets which, once in use, will further protect the recorders. The bag is carried either by handles or shoulder strap and like the hard cases is made from good quality, thick nylon material. (17" x 16")

EMS Tabors

A series of re-enactment mediaeval tabors with single snare, using only the best quality calf skins. The two skin heads are tied to a wooden frame with hemp rope. A hemp snare is tied to one head. Players usually hang the drum from the forearm while using one stick to strike the snared head. The tabor is suspended by a strap from the forearm, somewhere between the elbow and wrist. Optional carrying bag available.

- tabor bag£ 18.75
